The Ethics of Scientific Publishing in The Journal

Due to the huge revolution in the techniques of collecting, preserving, retrieving and publishing information, the researcher has now a tremendous amount of information that can be relied upon in choosing his/ her hypotheses and ideas, and drawing his/ her judgments and findings. Hence the importance of having ethical criteria or regulations for academic and research work at the university and research centers has been stemmed from that. Scientific research requires a set of ethical values and principles that we summarize as follows:

- The research should be original.
- The research should consider and respect intellectual property.
- The research should be honest and accurate in documenting, analysing and publishing data and results, without lying, misleading or deceiving.
- Commitment to confidentiality of the data of each of the study participants.
- The research should be objective, unbiased, or manipulated when presenting the analysis of the data and its results.

The steps of the reviewing / refereeing process when receiving an article

1. Researches are initially reviewed by the editorial board to decide whether it adheres to publication rules and whether it is eligible for refereeing.
2. Deleting all data of the researcher before sending the research to be refereed.
3. Sending the eligible research for refereeing by two accredited jury members with expertise and close specialization in the subject matter of the research, to evaluate it according to specific points (research evaluation form).
4. The journal is obliged to inform the researcher of the approval to publish the research without modification or according to certain modifications, based on what is mentioned in the referees' reports, or an apology for not publishing the research, with a statement of the reasons for the apology within fifteen days.
5. Informing the researcher about the date of publication of the research and the number of the volume where the research will be published.
6. For joint research, it is published with the consent of the parties participating in the research and not separately.

Foreword

This is a monthly issued educational journal established in 2017 through the initiative of **Dr. Hanan Hafez**, its editor, as well as the participation of some teaching staff members specialized in language teaching and learning. The journal aims to publish research pertaining to teaching and learning languages and their teaching methods. It serves as a reference to teachers and novice researchers interested in this field. It is also considered as the first journal in Egypt in terms of publishing research concerned with language learning and teaching, seeking a high scientific level and cooperation with the institutions concerned. This uniqueness leads us to maintain the scientific quality of the published research, the novelty of topics, the soundness of scientific methodology, and the accuracy of language. The journal's review system is committed to transparency, promptness, and scientific accuracy. All thanks are dedicated to the researchers and teaching staff who enrich the journal with great efforts that seek its development.

Préface

La nouvelle revue intitulée (la revue égyptienne de la didactique des langues) est une revue pédagogique, à l'origine mensuelle, fondée en 2017, à l'initiative de **Dr. Hanan Hafez**, avec une poignée du corps enseignant des diverses universités égyptiennes. Cette revue a pour finalité de diffuser en langues (française, anglaise, allemande et même arabe) l'actualité des travaux des recherches relatives à l'enseignement et à l'apprentissage des langues. C'est une revue de référence qui s'adresse aux enseignants, chercheurs et jeunes chercheurs impliqués dans ce domaine.

Ayant constaté que c'est la première revue présentée en Egypte susceptible de publier les recherches portant sur l'enseignement et l'apprentissage des langues. L'objet est de construire une revue

égyptienne, de haut niveau scientifique travaillant en lien avec différentes institutions et équipe de recherche. Cette forme de distinction nous incite à accroître encore nos exigences en matière de qualité scientifique des recherches publiées, mais aussi dans leur évaluation, système que nous allons nous attacher à rendre transparent, rigoureux, rapide, respectueux du travail du corps enseignant et des évaluateurs, en nous l'espérons plus formatif. Nous tenons à remercier vivement tous les chercheurs et corps enseignant qui par leur aide et leur implication, ont permis l'élaboration de cette revue.

Die pädagogische Zeitschrift für Sprachdidaktik ist eine monatliche, pädagogische Zeitschrift, die auf die Initiative von Prof. Dr. Hanan Hafez, der Redaktionsleiterin, und in Zusammenarbeit mit Fachkollegen im Bereich der Sprachlehr- und Lernforschung gegründet wurde.

Die Zeitschrift fasst sich als Forum für Forschungsbeiträge zum Lehren und Lernen der Sprachen und Ihre Unterrichtsmethoden auf. Als erste Zeitschrift in Ägypten, die sich der Sprachlehrforschung und dem Sprachunterricht widmet, will sie den interessierten Institutionen qualitativ bessere und verwertbare Forschungsergebnisse zur Verfügung stellen. Außerdem will sie als Referenz für Sprachlehrer und Forscher dienen. Beides kann nur durch innovative Ideen, die Einhaltung von Forschungsstandards und ein transparentes, faires und schnelles Begutachtungsverfahren erreicht werden. Allen Forschern und Dozenten, die zur Weiterentwicklung der Zeitschrift gebührt ein besonderer Dank.
